# MANPOWER SUPPLY SERVICE

Multinational Technologies Limited also features in the labour force market. We stand out as a manpower supply company with a difference. We are equipped with extensive experience in the recruitment and placement of both local and international professional, skilled, semi-skilled and unskilled workers to the oil and gas sector as well as other service sectors of the Nigerian economy.

We have highly professional employees working to satisfy our client's needs and demands. We also exert efforts in conflict resolution between our clients and partners, by referring to the acceptable global industrial/business standards and ethics.

We have been licensed by the Federal Ministry of Labour and Productivity as a recruiter of contract staffing and outsourcing in the oil and gas sector for both local and international projects.
